

ANAND CHAVAN

Pune, Maharashtra, India | +91-9730343050 | chavananand33@gmail.com

PROFESSIONAL SUMMARY

Experienced in building **AI-driven automation solutions using Python, LLM APIs, and modern AI frameworks**, with hands-on work in **LangChain-based chatbot systems, prompt engineering, and backend AI integrations**. Skilled in **Linux/Unix environments, SQL databases, and scalable backend troubleshooting**, enabling reliable deployment of intelligent automation systems.

Focused on bridging **enterprise-grade infrastructure reliability with modern AI engineering**, with growing expertise in **Generative AI, RAG architectures, multi-agent workflows, and ML-driven automation pipelines**.

TECHNICAL SKILLS

- **AI & Automation:** Python (AI-focused), Generative AI, Prompt Engineering, Machine Learning Fundamentals.
- **AI Tools:** ChatGPT, Google Gemini, Perplexity, NotebookLM, Claude.
- **Operating Systems & Infrastructure:** Unix/Linux Server Operations, RDP, Shell Scripting.
- **Databases:** Oracle (11g/19c), SQL Developer, PostgreSQL.
- **Enterprise Support Tools:** SAP CRM, BMC Remedy, HPSM, Citrix, WinSCP, Putty.
- **IT Service Management:** Incident & Problem Management, RCA, SLA & KPI Governance, Change & Release Management.

AI & AUTOMATION PROJECTS

AI Portfolio Chatbot with Visitor Analytics | Python, LLM APIs, PostgreSQL

- Built an **AI-powered chatbot** that enables natural language interaction with portfolio content using **LLM APIs**.
- Developed a **Python-based backend service** to process prompts and generate contextual responses dynamically.
- Designed a **PostgreSQL database schema** to store visitor data, chatbot interactions, and engagement metrics.
- Implemented a **visitor analytics pipeline** to track portfolio traffic and chatbot usage patterns.

- Replaced static portfolio navigation with **AI-driven conversational interaction**, improving user engagement.

PROFESSIONAL EXPERIENCE

Support Engineer | IBM India Pvt. Ltd. (Pune)

August 2024 – November 2024

- **Project: DXL (Digital Experience Layer):** Provided L2 support for a backend middleware platform connecting customer channels (App, Web, POS) with billing and CRM systems.
- **Impact:** Reduced incident resolution time by **25%** through structured Root Cause Analysis (RCA).
- **Responsibilities:** Monitored API performance, managed payment processing integrations, and ensured data persistence in MongoDB.

Deputy Manager | JIO Platforms Limited (Mumbai)

May 2022 – July 2024

- **Project: Enterprise SAP CRM:** Managed telecom activation workflows for JIO postpaid numbers, including GST and identity validations.
- **Impact:** Maintained **99.9% system uptime** by diligently monitoring system queues and logs.
- **Responsibilities:** Executed Linux-based system backups, implemented configuration and security changes, and managed critical incidents within strict SLA timelines.

Application Support Engineer | IBM India Pvt. Ltd. (Pune)

March 2017 – May 2022

- **Project: VI Second Consent Gateway & OFFNET:** Supported high-volume platforms for Value-Added Services (VAS) and event-based charging (PPU).
 - **Impact:** Played a key role in the Vodafone-Idea (VI) system consolidation and brand launch.
 - **Responsibilities:** Configured new services, managed production escalations, and ensured regulatory compliance for second-consent activations.
-

EDUCATION & CERTIFICATIONS

- **B.E. in Computer Engineering** | Pune University (Distinction).
- **Diploma in Engineering** | MSBTE (Distinction).
- **SSC** | Maharashtra State Board (Distinction).
- **Certifications (In-Progress/Completed):**
 - Microsoft: Power BI Data Analyst Associate (PL-300).
 - MOS: Powerpoint Associate(MO-310)
 - Training: Python for AI & Automation, Generative AI & Prompt Engineering, AI & Machine Learning Mastery.
