PROFESSIONAL SUMMARY

Salesforce Marketing Cloud Intelligence (Datorama) Developer with 9+ years of experience in designing, building, and optimizing **marketing data pipelines, data models, and performance reporting systems** within enterprise CRM ecosystems.

Experienced in **end-to-end data lifecycle management** including data ingestion, transformation, validation, and visualization to enable **campaign performance tracking and data-driven decision-making**. Strong expertise in **SQL-based data engineering, data quality frameworks, and root cause analysis** across high-volume datasets.

Hands-on exposure to **MCI (Datorama) data streams, data mapping, and marketing data integration**, supporting unified marketing intelligence solutions. Proven ability to collaborate with cross-functional teams to deliver **scalable, reliable, and business-aligned analytics solutions**.

Currently enhancing capabilities in **AI-driven analytics, Python-based data processing, and automation** to build next-generation intelligent marketing systems.

CORE COMPETENCIES

- **Salesforce Marketing Cloud Intelligence (MCI / Datorama)**

Data integration, data modeling, ETL pipeline development, dashboard creation, and performance tracking.

- **CRM & Marketing Analytics**

Campaign analytics, customer segmentation, lifecycle analysis, and marketing attribution.

- **Data Engineering & Processing**

SQL-based transformations, data validation, workflow optimization, and automation of reporting pipelines.

- **Business Intelligence & Reporting**

KPI tracking, dashboard development, and stakeholder reporting for marketing and business teams.

TECHNICAL SKILLS

- **Salesforce Marketing Cloud Intelligence (Datorama)** – Data Streams, Data Mapping, Data Model
- **SQL** – Data Extraction, Transformation, Validation
- **Marketing Data Integration** – APIs, CRM Data, Campaign Data
- **Data Modeling** – Logical & Analytical Models
- **Power BI** (Reporting & Visualization)
- **Python (Learning)** – Data Processing & Automation
- **Oracle DB | Unix/Linux**
- **Monitoring Tools** – API & Data Pipeline Monitoring

CERTIFICATIONS

- Salesforce Marketing Cloud Consultant
- Microsoft Power BI Data Analyst Associate (PL-300) – In Progress
- Python for Data Engineering (Coursera)
- Microsoft AI Engineer Associate (AI-102)
- Generative AI & Prompt Engineering – In Progress

EDUCATION

Bachelor of Engineering – Computer Engineering | Pune University – Distinction
Diploma in Engineering | MSBTE – Distinction
SSC (10th) | Maharashtra State Board – Distinction

PROFESSIONAL EXPERIENCE

IBM India Pvt. Ltd., Pune – Support Engineer (Aug 2024 – Nov 2024)

- Monitored and validated **data pipelines and API integrations**, ensuring accurate data flow into analytics systems
- Performed **SQL-based data validation and transformation checks** to maintain data integrity
- Analyzed **event-level customer data** to identify inconsistencies and pipeline failures

- Supported **data ingestion workflows** used in downstream reporting and analytics systems

JIO Platforms Limited, Mumbai – Deputy Manager (May 2022 – Jul 2024)

- Managed **CRM data pipelines and lifecycle datasets** (activation, suspension, termination)
- Performed **data validation and transformation using SQL**, ensuring consistency across systems
- Collaborated with business teams to translate requirements into **data logic and reporting structures**
- Implemented **data quality checks and monitoring frameworks**, improving reliability

Key Impact:

Improved **data pipeline stability and data accuracy** through structured monitoring and root cause analysis

IBM India Pvt. Ltd., Pune – Application Support Engineer (Mar 2017 – May 2022)

- Supported **large-scale data systems handling millions of records**, ensuring data availability for analytics
- Investigated **data pipeline failures, API issues, and transformation errors**
- Worked with **marketing and CRM datasets integrated with Salesforce and MCI environments**
- Assisted in **data preparation for campaign analytics and reporting use cases**

Key Impact:

Enabled reliable **data flow for marketing analytics and campaign tracking systems**
